DETAILED ACTION

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The most relevant references in the list of prior art cited are Lee (US 6,755,984) and Voisin (US 2003/0205657) who teach methods for forming imprint stamp or template. However, they do not teach or suggest a method comprising: after depositing a first layer on the etched and patterned substrate, patterning and etching the first layer to form an application specific imprint pattern in the first layer; repeating the depositing, the patterning, and etching until the specific imprint pattern is completed defined; segmenting the substrate to form an imprint blank; etching the exposed cross-sectional surface of the imprint blank to form the imprint stamp. **A person of ordinary skill in the art would not have been motivated to perform aforementioned steps because the prior art merely generates the line and space patterns that are substantially parallel to each other.**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
